Agate Mortar Datasheet

Natural agate mortars for manually crushing and grinding suitable samples. Five sizes with inner diameters from 50 to 160mm are available. Each mortar is supplied with a matching pestle.

Features

- Octagonal shape; different sizes
- Manual grinding in the laboratory
- Natural agate with individual colour and pattern
- Matching pestle included
- Size refers to the inner diameter

Product code	Inner Ø (mm)	Outer Ø approx. (mm)	Depth approx. (mm)	Dimensions approx. L × W × H (mm)	Filling volume approx. (mL)
2401	50	62	15	62 × 62 × 25	15
2402	70	82	20	82 × 82 × 30	30
2403	100	113	27	113 × 113 × 42	90
2404	130	145	36	145 × 145 × 56	200
2405	160	175	43	175 × 175 × 65	390

The approximate filling volumes are provided for size comparison and do not indicate a recommended grinding batch size. Dimensions refer to the mortar. Image for illustration; natural variations in colour and pattern are possible.

Care: For discolouration or deposits, rub a mild scouring cream into the mortar with a cloth. If required, polish with a small amount of car polish. Then clean with soapy water and rinse thoroughly to remove polish and wax residues. Depending on the application, these may cause contamination; check the cleaning procedure for residues before analytical use.
