Datasheet Cleaning concentrate for ultrasonic baths – alkaline (degreaser)

Alkaline cleaner with excellent degreasing power. Particularly suitable for removing greasy and oily residues.

Properties and use

- For greasy and oily residues
- Pack sizes: 250mL and 1000mL; 10L on request
- Do not use on aluminium
- Follow the datasheet and label

Notes: Aluminium parts may be damaged by the alkalinity of the cleaner. For such parts, we recommend conventional liquid soap or our neutral special-purpose cleaner.

250mL and 1000mL bottles.

Product data

Property	Specification
Product codes	2801 (250mL) / 2802 (1000mL)
Product type	Alkaline degreaser
pH of concentrate	13.5
pH at 1%	10
Ingredient groups	Surfactants, amines, alkalis, complexing agents, water-soluble solvents, fragrances
Shelf life	2 years
Material restriction	Do not use on aluminium
Dosage	20–100mL per 1L of water (2–10%)
Hazard statement	H314: Causes severe skin burns and eye damage.

Application: Add 200–1'000mL to 10L of water. Heating the ultrasonic bath improves cleaning performance. Percentages refer to the volume of water. Adjust the temperature to the material and soiling; follow the datasheet and label.

Safety: In case of skin or eye contact with the cleaner or its diluted solutions, rinse thoroughly with water. If swallowed, seek medical attention immediately. Safety goggles and gloves are recommended. Keep out of reach of children.
